El. Br. (I).Public Works Deptt.

Submitted with reference to office note at p.186 ante.

2. With a view to ensure a continuous, steady and regular supply of energy to all the consumers within the areas served by the electy. undertakings in this Province the Electrical Engr. to Govt. was requested to report the condition of supply of all the undertakings and make suggestions for improvements in each case. The reports on 60 electy. undertakings received from the El. Engr. had been dealt with vide o.n. at p.157 to 160 ante. As suggested by the El. Engr. some electy. undertakings were asked to take steps to improve their position of supply, vide G.Ls. at pp.162 to 179 ante. Replies received from the undertakings shown in the *margin

* The Karad Electric Supply Company. The Allied Elec. Agencies, Ltd., Satara. The Amalgamated Ely. Coy. (Belgaum). The Nasik-Devlali Elec. Supply Coy. The Malegaon Ely. Coy. The Mahableshwar Elec. Supply Coy. The Nipani Elec. Supply Coy. The Yeola Elec. Supply Coy. The Udwarda Wapi El. Supply Company. The Venkatesh Power Supply Coy.	are dealt with separately in separate files opened with the copies of relevant papers from this file. The Electy. undertakings at Amalner, Athani, Rander and Junnar, have not intimated the steps taken by them for ordering new sets and for conversion of D.C. to A.C. system by them
--	---

A as suggested in the G.Ls. at p.169, 170, 174 & 175 ante respectively. They may be requested to intimate to Govt. the steps taken by them in the matter.

3. The reports on the supply position of B.E.S. & T. and the Bombay Suburban Elec. Supply Coy. were not received. The El. Engr. was therefore expedited vide G.L. at p.185 ante. The reports since received from him will be found at pp.187-190 ante. The El. Engr. considers that both the undertakings will be able to satisfy the demands of the consumers. No action is therefore necy. on them.

4. Certain electy. undertakings were not asked to place orders for new set though they are needed to improve the supply position, as Grid supply is to be made available to those places and it is not considered advisable to ask the licensees concerned to incur heavy expenditure on purchase of new plants etc. vide para. 7 of the office note at p.158 ante. From the El. Commr.'s note it will be seen that Anand, Surat, Sanand, etc. places are likely to get grid supply within a year or two. But Byadgi will have to wait for 3/4 years more. Please see the El. Engr.'s report at p.135 ante. The El. Engr. may be requested U.O. to state whether he considers it necy. to ask the licensee to place orders for a new set.

5. What was aimed at in calling these reports was that the El. Engr. should be after the licensees and they should keep their position of supply in fairly satisfactory condition by carrying out the repairs to their machines etc. and by installing addl. sets where they are needed to cope up with the demand. The El. Engr. was asked to submit quarterly progress reports in respect of undertakings stating the progress made by each. For the reasons explained by him in his letter at p.161 ante, the El. Engr. however informed that the next progress report would be submitted in Sept. last. He has not yet submitted the reports. He may be expedited for the submission of reports.

6. It may be stated here that after taking into consideration the position of elec. supply at several places, as revealed by the reports, and also the difficulties of the Electy. Undertakings in the manufacture and transport of materials, ~~and~~ a press note has been already issued enlightening the general public of the causes of unsatisfactory elec. supply and requesting them to tolerate the tempy. inconvenience due to shortage of elec. power and a occasional interruptions to supply due to breakdown of machinery. A copy of the press note will be found at p.195 ante.

D.S.

The Undertakings at Bombay City, Bombay Suburbs, Bassein, Thana, Kalyan, Bhiwandi, Panvel, Lonavla and Poona receive supply from Tatas and are in a class by themselves. Their case is indirectly under consideration in the report of the Power Shortage Committee. They are mere 'agents' or distributors and not producers of elec. and should not be classed with others.

Action be taken on 'A' and 'B'; also the Elec. Engr. be asked separately as proposed in para. 4 of O.N. (This main file need not go to the Elec. Engr.) Individual cases should be dealt with on separate files.

(Original in P. 135 2 file 305/48-I)

BYADOT ELECTRIC SUPPLY COMPANY, LTD., BYADOT.

There is only one generating set of 43 KVA in the power house and it takes a maximum load of 34 KVA. safely. The plant is just able to cope up with this peak load.

The set is working under full load condition. As there is no standby plant, overhauling and replacement of worn out parts cannot be carried out satisfactorily. The engine is German make and genuine spare parts are not available. There are only two pending regulations with the Company.

The Company has ordered out a new set of 27.5 KVA capacity. The set has now been received at site and is under erection. The Company would order out another set of adequate capacity to cope up with the anticipated loads in the next few years.

Electrical Engineer to Govt.

(original in p 35 of 305/48-W)

SYNOPSIS OF THE PROCEEDINGS OF THE BOARD OF DIRECTORS

The generating set requires overhauling and removal of worn out parts such as cylinder head and pistons. The set is of 1940 make and the parts and spare parts are not available. However, the company is trying to get these parts manufactured locally.

The new condition of the set is not satisfactory and it is not in a position to generate power. It is recommended that an additional set of adequate capacity should be purchased to meet the anticipated load in the near future.

From

The Deputy Secretary to the Government of Bombay,
Public Works Department.

To

S.A.Manvi, Esquire,
Licensee Byadgi Electric License 1937,
Byadgi, Dharwar.

Subject:-Electric supply.

Dear Sirs,

It is understood that your old generating set needs overhauling and renewal of worn out parts. You are requested to take necessary steps, promptly, to keep the set in proper working order. It is also considered necessary that you should order out an additional set of adequate capacity to cope up with the anticipated load in the next few years. You are therefore requested to place an order for an additional set, under intimation to Government, as soon as possible.

Yours faithfully,

Sd/J. M. D.

Deputy Secretary to the Government of Bombay,
Public Works Department.

Sir,

With reference to your letter No. 305/48(27)-El.(I) dated 14th June 1950, we have to bring to your kind notice that we have made the negotiations with the agents at Bombay. No body has got the small generating set as per our requirement, from the stock. They are prepared to book the order on forward delivery provided they get the Import License, which please note and oblige.

Yours faithfully,
